

## How to update pages on the SGSA website

The webmaster's two-minute guide on how to fork and make a pull request in order to update the SGSA website!

1. Fork the SGSA website repo. Head to <https://github.com/ubc-stat-grad/ubc-stat-grad.github.io> and click "Fork". When asked, click "Create fork".

2. Clone the repo: `git clone git@github.com:<username>/ubc-stat-grad.github.io.git`

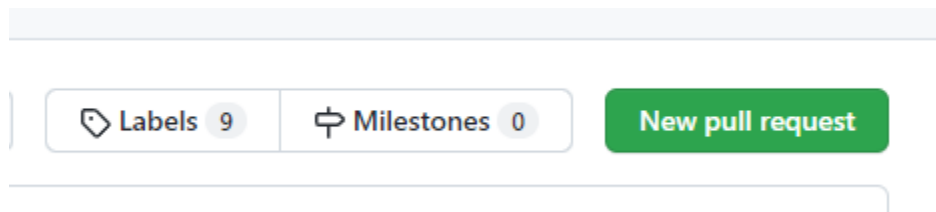

```
$ git clone git@github.com:nikola-sur/ubc-stat-grad.github.io.git
Cloning into 'ubc-stat-grad.github.io'...
Enter passphrase for key '/.ssh/id_rsa':
Enter passphrase for key '/.ssh/id_rsa':

remote: Compressing objects: 100% (71/71), done.
remote: Total 801 (delta 39), reused 64 (delta 22), pack-reused 708
Receiving objects: 100% (801/801), 41.00 MiB | 19.15 MiB/s, done.
Resolving deltas: 100% (459/459), done.
```

3. Make changes in your favourite code editor! For example, here we change the spelling of “Nikola” to “Nikolas” just for fun.

```
<div style="width:50%">
  <figure>
    <a href="https://www.stat.ubc.ca/users/nikola-surjanovic"></a>
    <figcaption><a href="https://www.stat.ubc.ca/users/nikola-surjanovic">Nikolas</a></figcaption>
  </figure>
</div>
```

4. Once you have made your desired changes, we should `git add .`, `git commit -m “my commit message”`, and then `git push`.

5. After you have done the above, you are ready to make a pull request. Visit <https://github.com/<username>/ubc-stat-grad.github.io/pulls> (replace <username> with your own username) and click on “New pull request”.

Review the changes and click “Create pull request”. Leave a description of the changes made and from there the webmaster will take over!
